Fort Lauderdale Waterfront Valuation Prep Sheet

Information to organize before a confidential valuation review

Prepared by Mia Sanabria · (954) 540-0358 ·
Issued 2026-05-11

FL Sales Associate License #SL3405877 · Fort
Lauderdale, FL

A prep sheet for owners requesting a confidential, property-specific valuation. Public estimates miss the variables that drive waterfront price; this is the residence-specific information Mia uses to draw the right comparable cohort and frame an honest valuation conversation.

Who this is for

Owners requesting a confidential, residence-specific valuation review who want to organize parcel, water-frontage, and insurance data before the conversation.

How to use this document

Gather what you can answer; leave blanks where you can't. Mia uses your responses to frame a residence-specific comparable cohort instead of a generic neighborhood range.

Address and parcel basics

- ☐ Full address with unit / building number if applicable.
- ☐ Broward County folio number (find it on the Property Appraiser record).
- ☐ Year built and most recent major renovation year.
- ☐ Living-area square footage and lot dimensions.

Neighborhood and submarket

- ☐ Neighborhood name (Las Olas Isles, Harbor Beach, Rio Vista, Coral Ridge, Victoria Park, Bay Colony, Bermuda Riviera, etc.).
- ☐ HOA or property-owner-association status, if any.
- ☐ Country-club membership or other amenity attachments that travel with the residence.
- ☐ Any historic-district designation that affects renovation rules.

Water frontage and canal context

- ☐ Linear feet of water frontage on the parcel.
- ☐ Canal name and width at the residence.
- ☐ Lot orientation (point, finger, canal-wide, lakefront).
- ☐ Whether the parcel sits on a turning basin or a through-canal.

Route-to-inlet and bridge variables

- ☐ Inlet route (Port Everglades for most Eastern Fort Lauderdale parcels; Hillsboro Inlet for some northern alternatives).
- ☐ Count of fixed bridges between the dock and the open Atlantic (zero is the deepwater premium).
- ☐ Count of opening bridges; current operating schedules.
- ☐ Approximate run time from dock to inlet at idle speed.

Dock and seawall condition

- ☐ Dock length, beam clearance, lift presence + capacity.
- ☐ Seawall installation year, last inspection year, any documented repairs.
- ☐ Any shared-seawall obligations with neighboring parcels.
- ☐ Any planned or anticipated seawall, dock, or lift work.

Architectural era and renovation history

- ☐ Architectural era (1920s Mediterranean Revival, mid-century modern, coastal modern, contemporary, new construction).
- ☐ Significant renovations with year and scope.
- ☐ Pool, lanai, and outdoor-living features.
- ☐ Notable architectural pedigree (architect, builder, original owner) where it affects market value.

Insurance, flood, and elevation documents

- ☐ Most recent 4-point inspection on file.
- ☐ Most recent wind-mitigation inspection.
- ☐ Current elevation certificate.
- ☐ Any prior-claim history (CLUE report or carrier letter).

Comparable-sales context

- ☐ Any recent on-block sales the owner is aware of.
- ☐ Any prior listing history of the residence itself.
- ☐ Any private inquiries received before any prior listing in the past 24 months.
- ☐ Owner's perception of where the residence trades relative to immediate peers.

Seller goals and timeline

- ☐ Goal — list, hold, refinance, gift, partial-interest, estate plan.
- ☐ Target timeline — list date, target-close month, hard deadlines.
- ☐ Privacy preference — public-listing, quiet pre-market, or hybrid.
- ☐ Any constraints from co-owners, trust beneficiaries, or counsel.

Next step

The information above lets Mia frame a residence-specific comparable cohort rather than a generic neighborhood range.

- ☐ Submit the form on </valuation/> or call (954) 540-0358 to schedule the confidential review.

Documents to request

- ☐ Most recent boundary survey
- ☐ Elevation certificate
- ☐ Dock and seawall inspection records
- ☐ 4-point and wind-mitigation inspection reports
- ☐ Permit history (LauderBuild)
- ☐ Any prior listing history of the residence

Specialists to involve

- Florida-licensed insurance broker for dataroom completeness.
- Land surveyor for as-built confirmation if the survey is older than 5 years.
- Title insurance / closing attorney for any pre-listing structural questions.

Red flags / questions to ask

- A public valuation estimate that diverges sharply from owner expectation without a residence-specific reason.
- Recent on-block sales the owner is unaware of.
- Prior listing history at a materially lower price-per-sqft without renovation since.
- Shared-seawall obligations not previously disclosed.

Notes

Property address: _____

Folio number: _____

Year built: _____

Linear feet of frontage: _____

Notable architectural pedigree: _____

Owner priority — list / hold / refinance: _____

Other: _____
